Chairman Amy Billings said that she had concerns regarding the event: it was a very busy time, parking issue, will there be a fee. She had concerns about how the screen would be secured if it was windy. She said that a police detail is required as there will be people wanting to cross Sea View Avenue.

Carleen Cordwell said that people will have to purchase headsets in order to hear the movie and that everyone will bring a blanket or beach towel.

Commissioner Tony Lima said they need to check to see if OBPD can handle another detail after the events of the previous week. He added that they will need people to monitor parking so they do not park in areas they are not supposed to park.

Amy said that they need to out of the park by 10:30 PM.

Commissioners advised that the event coordinator needs to secure the police detail before the Commission will give preliminary approval.
