To the oak bluffs planning board,

My name is David Packer and I am a graduate of MVRHS (2017). While I did not participate in sports during my time at MVRHS my younger siblings, friends and peers did. Over the years I have heard about the poor quality of our fields. I believe it is important to invest in our youth, all aspects of our youth. With such a large portion of the student body being athletes I find it disheartening to know they play on fields that contest their skill level. I urge to listen to the students of MVRHS, as they are the ones directly affected. Do not let loud minority decide the outcome.

Sincerely,  
David Packer
