Dear Friends and Neighbors

I am also an abutter to the Tabernacle (65 Trinity Park) and agree with Victoria Surr's letter. My additional concern is this project keeping within the existing building codes for our historical community? For example, ten public toilets and potential difficulties with connecting to the sewer system. Who will police and of course clean them?

Also, is there a guarantee to all lease holders that they will not have to pay anything for this huge construction project? I was told that to help pay for this project, would require more activities in the Tabernacle and if this is true, more cars, noise and people at all hours! What happens if these activities do not reach financial goals?

Thank you for your attention to these concerns.

This is a major change to the present Tabernacle and a vote by all lease holders should be offered.

Sincerely  
Harry Romsey  
65 Trinity Park  
Oak Bluffs
